Computer Systems Engineering student with hands-on experience in quality control, data analysis, and software development. Highly motivated, self-driven, and adaptable professional with solid knowledge of programming, relational databases, and modern development tools. Strong interest in contributing to innovative technology-driven projects, delivering efficient and scalable solutions, and continuously expanding technical skills.

PROFESSIONAL EXPERIENCE

CooperVision

Costa Rica

Quality Department Assistant

Abril 2022 – Enero 2023

- Executed contact lens sterilization processes in compliance with strict quality, safety, and regulatory standards.
- Inspected and verified product samples to ensure compliance with technical specifications and quality requirements.
- Assisted in identifying process deviations and supported continuous improvement initiatives within the production environment.
- Served as a Buddy Trainer, onboarding and mentoring new team members in operational procedures, quality standards, and best practices.

ACADEMIC & PERSONAL PROJECTS

San José, Costa Rica

Full Stack Developer

- Designed and developed web applications and functional modules using structured and object-oriented programming principles.
- Worked with technologies including Java, C#, PHP, SQL, and JavaScript to build scalable and maintainable solutions.
- Developed interactive analytical dashboards by integrating Power BI with complex SQL queries to support data-driven decision-making.
- Implemented solutions using Oracle relational databases, applying best practices in normalization, relationships, and database design.
- Created visual assets and interactive animations for educational and digital projects using 2D/3D design and modeling tools, with a strong focus on user experience and visual quality.

EDUCATION

Universidad Fidélitas

San José, Costa Rica

Computer Systems Engineering

2023 – Present

Advanced undergraduate student (fourth year)

Centro Educativo El Carmelo

San José, Costa Rica

High School Diploma

2015 – 2020

ADDITIONAL SKILLS

- **Programming Languages:** Java, C#, Python, JavaScript, SQL, Bash
- **Frameworks & Tools:** Spring Boot, .NET, React, Git, Oracle
- **Data Analysis:** Power BI, Advanced Excel, SQL querying
- **DevOps (Basic):** Docker, GitHub Actions, CI/CD fundamentals
- **Design & Multimedia:** Adobe Creative Suite, Blender (2D/3D)
- **Languages:** Spanish (Native) | English (Intermediate)
